3. Blackchip - The world's leading prestigious live casino platform
4. The outstanding advantages of Blackchip
5. Policy

1. EXCITING CASINO INDUSTRIAL MARKET

The casino industry plays a very important role in economic development, tourism and investment attraction in a number of countries, such as Las Vegas (USA), Macau (China), Singapore.

LAS VEGAS

In 2016, it attracted 43 million tourists

In 2020, the spending of tourists coming here last year also reached more than 35 billion US dollars, on average each guest spent 827 US dollars on their trip

SINGAPORE

In 2010, Singapore legalized casinos, starting with Resort World Casino in Sentos Land

Even in 2010, Marina Bay Sands and Resort World Casino contributed more than 14.7% of GDP to Singapore

By 2011, tourists to the lion island nation skyrocketed to 11.6 million people, the profit from the casino reached more than 5.5 billion US dollars

1. EXCITING CASINO INDUSTRIAL MARKET

- In the current industrial era 4.0, it has inevitably led to the strong development of many industries.
- In particular, the casino industry has also been developing constantly based on digital platforms, typically the live casino.
- And one of the technologies that this super hot industry is applying is the Blockchain technology platform.

2. **BLOCKCHAIN** TECHNOLOGY IN **CASINO** INDUSTRY

- ❖ Blockchain is like a public accounting ledger.
- ❖ In it, all information is stored and transmitted in a transparent, complete way, which cannot be altered or fraudulent.
- ❖ This is a new technology, which greatly improves the limitations of the traditional way of storing and exchanging information.
- ❖ For this reason, blockchain is increasingly being applied widely in many fields: economic and financial, education, agriculture, industry, entertainment, health or education....

BLACKCHIP

Blockchain technology makes the entire industry including the **casino** industry more **transparent** and **secure**. Thanks to that, the level of trust in the **Live Casino** market increased significantly

By doing this, each player's transaction will be recorded on an available distributed ledger. **Blockchain** can **minimize the risk** of fraud from bookies or players against each other.

2. BLOCKCHAIN TECHNOLOGY IN CASINO INDUSTRY

2. BLOCKCHAIN TECHNOLOGY IN CASINO INDUSTRY

Blockchain technology makes it possible for live casino floors to pay and transact with cryptocurrencies

Cryptocurrencies are the future of money. This is the trend of the future

Cryptocurrency is developed based on **Blockchain technology**. It is being applied and used in many different fields

More and more people see the potential of cryptocurrency, as **Bill Gates**, co-founder of Microsoft corporation, once said: "**Bitcoin is a great technological achievement.**"
